PROFESSIONAL SUMMARY

Computer Science student with a strong foundation in backend development, data analysis, and software engineering principles. Experienced in building applications using C#/.NET, SQL, and RESTful APIs. Certified in backend development and data analysis, with ongoing cybersecurity training via TryHackMe. Seeking an internship or entry-level role in software engineering, data, or cybersecurity.

TECHNICAL SKILLS

Programming: C#, .NET, ASP.NET Core, Java, Python

Data: SQL, Relational Databases, Entity Framework, Data Analysis

Engineering: OOP, Data Structures & Algorithms, REST APIs, Unit Testing

Cloud: Azure, CI/CD, GitHub

Systems & Security: Windows/Linux, Networking, Cybersecurity Fundamentals

PROJECTS

Backend API Development: Built RESTful APIs with ASP.NET Core and SQL integration

Data Analysis: Cleaned and analyzed datasets using Python

Cybersecurity Training: Completed hands-on labs in networking and threat detection

EXPERIENCE

Tutor – Research Unlimited (2023): Delivered Math & Chemistry lessons, improved performance

Education Assistant (2022): Supported teaching and classroom management

EDUCATION

BSc Computer Science (In Progress), University of Nyíregyháza (2024–2027)

BSc Behavioral Genetics, University of the Free State (2018–2021)

CERTIFICATIONS

Microsoft Backend Developer, IBM Data Analyst, AWS Fundamentals
